

Regardless of hardware type,  
measure to & from where the  
spring touches the frame.

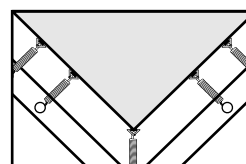

Select corner configuration:

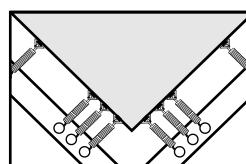

☐ Normal (as shown)

☐ Normal with diagonal

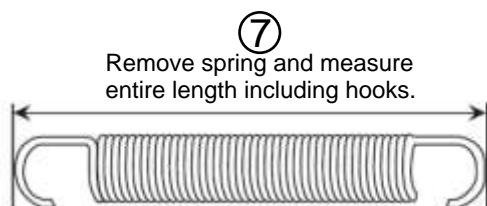

☐ Diagonal

☐ Crowded

Count spring attachments along end  
If present, do NOT count the diagonal corner springs.

1. Width(at first spring) \_\_\_\_\_
2. Width(at center) \_\_\_\_\_
3. Length(at first spring) \_\_\_\_\_
4. Length (at center) \_\_\_\_\_
5. Spring count along long side \_\_\_\_\_
6. Spring count along end \_\_\_\_\_
7. Spring Length \_\_\_\_\_
8. Corner configuration \_\_\_\_\_
9. Find correct order form at <https://www.trampolineproshop.com/square-frame-order.php>

We prefer to receive mat orders by mat measurement whenever the old mat meets these guidelines.  
Please Note :

1. If your old trampoline mat has a hole, do not measure across or near hole. If hole risks measurement or if replacing most or all the springs, order using frame measurements here: <https://www.trampolineproshop.com/square-frame-order.php>
2. Mat can be measured while installed or while laying on a flat surface of the trampoline. pull the mat at while measuring.
